

# Be of service in your underwear!

Saint Paul Intergroup has a service opportunity that you can do in the comfort of your own home. We need Night Owl volunteers. The Night Owl program offers volunteers the opportunity to be the first person a suffering alcoholic talks to when they need help. We have a variety of shifts available.

This service commitment requires one year of sobriety and a telephone. The phones are forwarded to your number during the times the office is closed. If you are interested in this simple service opportunity please call Melissa during business hours for further details and a Night Owl Packet.
